

## Skito Dryback Saddle Pad

The Dryback one-piece pad is a great choice for people that have sensitive backed horses, those that do extensive Endurance riding, and often for heavy weight riders. The Dryback can reduce friction while providing increased shock absorbtion. The Dryback for ReactorPanel Saddles comes in two sizes, standard and long (extra four inches for cantle bag protection). Insert choices are as follows: ¾" foam, ½" foam, or ½" foam with ¼" felt. Specify 100% wool fleece or 65% - 35% wool-poly blend. The Nomad material is blue. Standard Cordura color is black. Call for custom color orders.

Standard, or long with 100% wool: \$241.50

Standard, or long with 65% - 35% wool-poly blend: \$220.50

**Toklat Originals Saddle Pads** Toklat makes custom saddle pads for the ReactorPanel saddle line in a variety of materials and colors. Woolback is Toklat's trademark 65% wool/poly blend and Coolback is Toklat's orthopedic pile fleece. Cotton quilted pads are available either shaped to fit the saddle, or square. All other pads are shaped only. Our Toklat pads now come with a Velcro pocket latch in the front, as well as one on the rear pocket for ease of use.

CLASSIC III Quilted Cotton Pads are Black, Burgundy, Royal Blue, Navy, Green, Teal, Red, White

Dressage Square \$81.95 Standard Square \$80.30 Shaped \$80.30

Add panel lining to any of these pads: Woolback ½ lining is \$33 Poly-fleece ½ lining is \$20

ENDURANCE PADS of Cordura with suede girth reinforcement. Fully lined and shaped to fit the saddle.

Available in Black, Burgundy, Royal Blue, Navy, Green, Teal, Purple, Brown, Red, Gray.

Choose Woolback lining for \$109.45 or Coolback lining for \$88

MEDALLION FLEECE PADS for H/J have a fleece top and a quilted cotton lining. White only. \$90.75

## JMS Merino Seat Covers

Our covers are made by JMS out of 100% merino sheepskin pelts specifically for RP saddles. They are thick, soft and the most durable available. They cover the entire saddle, including flaps, and fit snugly. They attach with an elastic strap that runs under the saddle and attaches with a Velcro tab to a neoprene pocket that hugs the cantle. There are four ties to secure the fit if desired. This cover allows you to ride in shorts and feel fabulous as there are no seams under the leg! If choosing between the full cover and the fenders (see Stirrup Fenders), note that the full covers do take up a bit of seat room. Colors: black, dark brown, golden and cream.

One size sheepskin cover (all colors): \$205.

## JMS Stirrup Fenders

Fenders are single layer of Merino sheepskin on the hide in the shape of a western fender. The underside of the fender features a ballistic nylon layer that is 4" wide with a Velcro opening down one side for ease of fastening around the stirrup leather (up to 3.5" wide). The single layer of fleece eliminates bulk under the leg while offering the entire leg protection from stirrup leather friction. The fender easily affixes to the stirrup bar at the top and the bar of the stirrup at the bottom with Velcro nylon straps to reduce bunching and excess movement. Standard size will generally fit people that are 5'4" to 5'11". Colors are black and brown. Please call for custom sizing.

Standard size fender (all colors): \$125.
