

# ReactorPanel

THE RESPONSIVE SADDLE

## How Much Can a Saddle Improve Your Horse's Performance?

Find out at an RP Educational and Informative Saddle Fitting Clinic

### Interested in trying a ReactorPanel?

Join riders, from pleasure to FEI level competitors, by riding in this revolutionary system yourself!

#### Where are clinics held?

RP Fitting Clinics can be held anywhere in the world and are routinely held throughout the US.

#### How to Organize a Fitting Clinic at Your Barn:

To organize a clinic, you'll need a host and a host location. Clinics can also be combined with a lecture for a fundraising event.

The RP is a remarkable saddle! Engineers using computerized pressure testing developed The ReactorPanel Saddle System to create the most dynamic and innovative saddles on the market.

It is adjustable; it flexes with your horse's movement; and it distributes weight across a large surface to decrease

pressure on the horse's back. Most horses immediately exhibit a dramatic improvement in their movement and an increased sensitivity and willingness to the rider's aids. Will yours? Try one and see.

**The RP Fitting Clinic is more than just an opportunity for you and others at your barn to try a custom fit RP saddle. It is an educational opportunity where you will learn more about:**

- ◆ Your horse's conformation, fitting challenges, current muscle condition and comfort level.
- ◆ Body asymmetries in horse and rider.
- ◆ How the saddle acts as an interface between horse and rider.
- ◆ Basic saddle fitting techniques and tools.
- ◆ How your current saddle fits your horse by testing it with a Port Lewis Impression Pad.
- ◆ ReactorPanel Saddles; we custom fit the saddle of your choice and guide you through a test-ride.

Port Lewis Pad results from a poorly fit saddle.

#### The RP Free Evaluation Program

If you like the RP, you keep it for a two-week testing period or longer.\* We insist you ride in it, put it to the test, do whatever you need to do to determine if it should be yours. If it passes your test—you buy it. If it doesn't—send it back.

**Riding is believing...Contact us to see for yourself.**
