

Another Remarkable Success Story from ReactorPanel Saddle Company

Disciplined and graceful, Emily Sorensen and her mount Cris are a team to watch. They first met when she was 14 and he was only 2. Since then they have spent countless hours together in pursuit of brilliance.

This year they debuted at Fourth Level. Thanks to their patient though demanding program they have earned consistently high scores and have qualified for the CDS Young Rider Championships. Their performance...excellent.

So what is the key to their success?

Though young, Emily is uniquely thoughtful in her approach to horsemanship. Early on, she recognized that if Cris wasn't comfortable, their ability to achieve their goals would be jeopardized. When Cris began to show signs of saddle discomfort, Emily was quick to act.

Since buying her RP saddle in 2002, she and Cris have been unstoppable. In every product she chooses, from her KK Bit to her Euro Pro Boots, Emily's conscientious horse care shows.

ReactorPanel Saddle Company is proud to serve discerning equestrians like Emily. Discover what she and every RP owner already knows: our saddles, our accessories and all the products in the RP Store are carefully selected to help you succeed.

Learn more about RP Saddles and accessories by visiting our website and online store or by scheduling a farm visit. We'll test the fit of your current saddle and give you an RP to try. If you like it, keep it for a free two-week test ride. You may be the next RP success story!

The RP Store offers products for optimal horse care like: ReactorPanel Saddles and products, Herm Sprenger, KK Bits, Euro Pro Boots, Mattes, Toklat, Mackinnon Icehorse Boots, Healing Tree, Epona, and more.
